Where is the Practice?

The practice is located at 60 Alexandra Street, Hunters Hill, Sydney, 2110. This is on the peninsula side of Hunters Hill. It is a small converted house on the right just before the road turns sharp right becoming Ferry St.

Is there Parking available?

There is ample unlimited parking in nearby residential streets. In case of walking difficulty, it is also possible to drop off at the practice prior to parking.

Will I have to wait for my appointment?

Mostly this practice runs to time with approximately 95% of patients being seen at their scheduled appointment time.

Will I need to come back again for testing?

We try to predict what tests may need to be done such that these can be scheduled at the same time. This usually means that the consultation and testing is completed at the same visit.

When will my GP receive the information?

Because Dr. Quirk does his own scans and testing, the reports and letter are available the same day and usually your GP will receive these in the mail the following day.
